

Science

Year 1-All About Me

Prior Learning

I know about similarities and differences between myself and others.

I can make observations about myself and other people.

I can talk about myself and my own features

Key Knowledge

We are called humans. We are from the family of animals called mammals

I can name the main body parts. (including head, neck, arms, elbows, legs, knees, face, ears, eyes, hair, mouth, teeth)

I can sing songs and rhymes to help me recall the main body parts.

I can name the 5 senses and say which body part they are linked to.

- **Touch** We touch using our skin.
- **Taste** We taste by putting something in our mouth.
- **Smell** We smell by using our nose.
- **Sight** We see by using our eyes.
- **Hearing** We hear by using our ears.

I can use my senses to compare different textures, sounds and smells.

Key Concepts

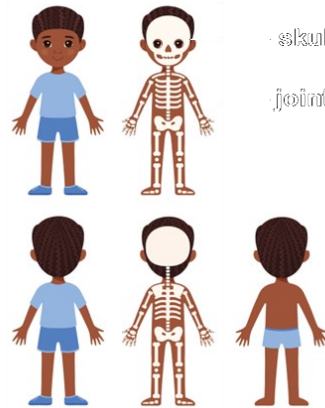

Generate ideas -

I can observe and explore.

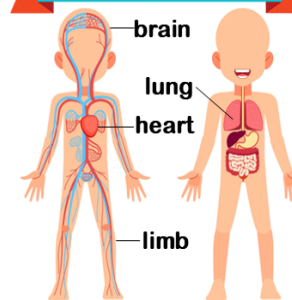

Investigate, observe and record -

I can take part in practical investigations and experiments

Human Skeleton

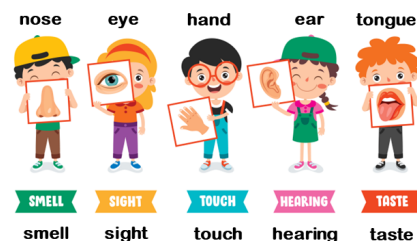

The Human Organs

BODY PARTS

5 SENSES

Key Vocabulary

human - a person; human being. Humans are part of the group of mammals

body - the whole of a human or animal, including the head, brain, heart, legs and arms

brain - the control centre of the body

mammal - A warm blooded animal that has a skeleton with fur or hair on its skin

sound - vibrations, or sound waves that we can hear

senses - Any of the five ways to understand or experience ones' surroundings. The senses are touch, smell, taste, sight and hearing

pupil - the black spot in the middle of the eye that lets in light, colour and shapes
