

History

Year One -Toys

Prior Learning

There are different types of toys that move in different ways. Names of common materials and what they look and feel like. The chronology of my family history and that people who are older than me, were born before me. There was a time before my grandparents were born. An understanding of which toys I played with as a baby, toddler and 5 year old.

Key Knowledge

My grandparents toys were usually made from wood and metal. Some toys have been used across generations used to play with, such as scooters, teddy bears, or (more recently), mobile phones. They are the same toy, but just look different.

There are many similarities and differences between old and new toys - this can be down to how they move and what they are made from.

Old toys - Often wood, usually mechanical or moved by hand, usually hand made

New toys - Often plastic, can use batteries, usually made by machines

Key Concepts

Investigate -

I can investigate using different methods, media and sources.

Communicate

I can use appropriate vocabulary to develop explanations.

Key Vocabulary

modern - things made now or recently

the past - objects and things that happened before now

old - having existed for many years; not new

now - at this time or in these times

present—existing at this time; current

generation - a group of people: children, parents, grandparents etc.

before - at an earlier time; in the past
